

NOTICE TO ERASMUS ITALIANO SELECTED STUDENTS A.Y. 2026/2027

Guidelines for course selection and Learning Agreement completion

Successful applicants for the Erasmus Italiano mobility program for the first semester of the A.Y. 2026/2027 are hereby informed that, following the final acceptance of their host institution, they must proceed with the preparation of the **Learning Agreement (LA)**.

The Learning Agreement is the official document that guarantees full academic recognition of the activities carried out during the mobility period. To ensure a correct and effective choice of courses or other activities to be taken at the Host Institution and the subsequent replacement of courses within their Federico II study plan, students are invited to carefully follow these steps:

1. Consultation of the Host Institution's Course Catalogue

- Connect to the website of the destination University and consult the webpage of the Degree Program that is equivalent or related to your own.
- Check the list of course units active in the **first semester** of the A.Y. 2026/2027.
- Download the course syllabi of the selected subjects to verify their contents, Scientific-Disciplinary Sectors (SSD), and the ECTS (CFU) credits awarded.

2. Criteria for the selection of the activities and replacements within the studyplan

The choice must be based on a principle of **overall educational coherence** and not necessarily on a perfect identity of the course programs.

- **Look for correspondence in objectives and credits:** Identify courses at the Host Institution that have a syllabus, a disciplinary field (SSD), and a number of credits that are appropriate or comparable to the Federico II exams you intend to replace.
- **Credit flexibility:** It is possible to combine multiple courses from the Host Institution to cover a single exam at Federico II, or vice versa, as long as the total number of credits is balanced. Please note that the Learning Agreement must include activities worth **at least 12 ECTS (CFU)**.
- **Elective credits (Free-choice courses):** The mobility period is an excellent opportunity to cover "student's choice" exams (elective credits), potentially drawing from innovative subjects not available at Federico II, provided they are coherent with your educational path.

- Preparation for thesis and internship activities: It is possible to undertake activities related to the preparation of the thesis and training activities that can be classified in the disciplinary areas "other activities" or "additional knowledge." Please note: if your study plan includes "n" ECTS (CFU) for the thesis, the coordinator will be able to award you a maximum of "n-1" ECTS (CFU), as 1 credit is reserved for the thesis defense at the University of Naples Federico II.

3. Consultation with the Degree Programme Coordinator and Approval

- Once the study plan at the host institution has been defined, the student is required to submit it to the Coordinator of their Degree Programme for academic review. During this stage, the proposed study plan is assessed to ensure its consistency with the learning objectives of the Degree Programme, the correspondence of elective credits, and the eligibility of the selected courses for academic recognition upon completion of the mobility period.
- Upon completion of the review process, the Degree Programme Coordinator approves the proposed study plan, provided that it complies with the academic requirements of the Degree Programme. This approval constitutes the prerequisite for the recognition of the academic activities successfully completed at the host institution, in accordance with the Learning Agreement and the University's academic regulations.

4. Completion and Signatures

Once the plan is defined, the student must fill out the sections relating to the "*Program of activities at the University of destination*" and the "*Recognition of activities by the University of origin*".

The document must be digitally signed in the following order:

1. By the **Student**.
2. By the **Coordinator of the CDS at Federico II** (for approval).
3. By the **Coordinator/Supervisor at the Host Institution** (for final validation of course availability).

The Learning Agreement, duly signed by all parties, must be submitted to the administrative offices before the official start of the mobility period.
